

Year 1

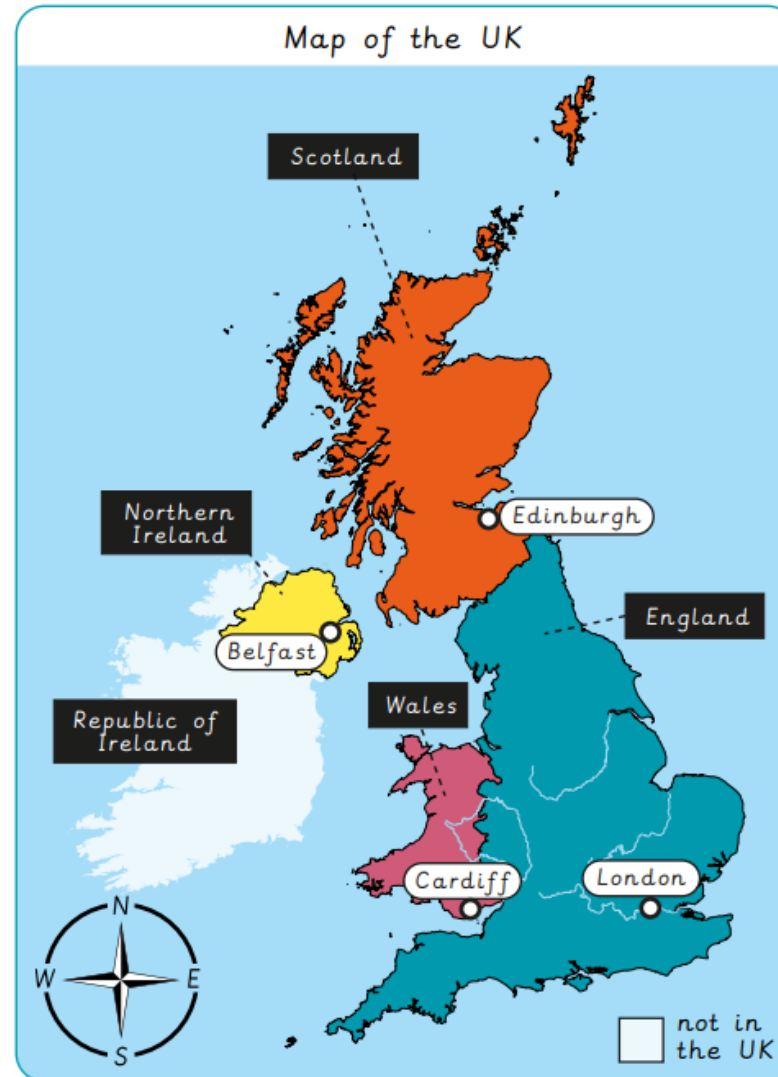

What is the weather like in the UK?

Prior learning: What is it like here? (and Science: Seasonal Changes)

What we are learning				
Lesson 1: To locate the four countries of the UK.	Lesson 2: To identify the four compass directions.	Lesson 3: To investigate daily weather patterns.	Lesson 4: To identify daily weather patterns in the UK.	Lesson 5: To understand how the weather changes with each season (see Science).

Key vocabulary		
season	One of four parts of a year, marked by the weather conditions.	
weather	The short-term conditions in a particular place.	
thermometer	An instrument for measuring temperature.	
locate	To discover the position of something.	
climate	The long-term weather conditions in a specific region.	
temperature	A measure of how hot or cold something or somewhere is.
